Life Science Factory

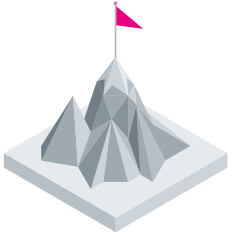

life science made in goettingen

room for start-ups.

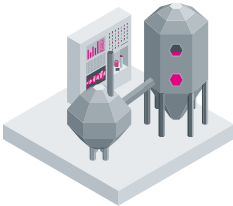

vision

We intend to **establish Goettingen as our “location of choice” for life science start-ups** while creating the necessary infrastructure & platforms.

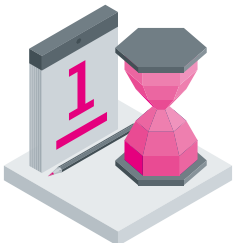

purpose

Our mission is to foster **an entrepreneurial spirit by identifying future-orientated technologies and supporting both start-ups and spin-offs** in the life science sector.

facilities

The Life Science Factory creates an **environment where you can research, work and build prototypes** that is embedded in a tightly structured program of carefully selected **events and mentoring**.

timing

As of January 2022, there is **more than 3,000 sqm of new space featuring state-of-the-art shared spaces with laboratories, multi-purpose offices & event rooms for business founders and start-ups.**

1,700 sqm
